Intro

About Me

My name is Tinotenda Bongani Ashley Muringami, and I am a web designer, developer, and entrepreneur. I am passionate about using technology to help businesses grow and achieve their goals. As the founder and CEO of Realwebsdigital, I have been able to help many startups and legacy businesses to create amazing websites, branding, and digital marketing projects that have enabled them to reach their target audience and drive sales.

02

Experience and Skills

Frontend Development

Backend Development

Open A.I

Brand Design

Adobe Photoshop

Graphic Design

Before I became a designer, I was in the accounting industry, where I learned the importance of attention to detail, accuracy and accountability. These skills have helped me in my career as a web designer, where precision and attention to detail are critical to delivering high-quality work.

I am a firm believer in the power of collaboration and teamwork. I have worked with many talented designers, developers, and marketers over the years, and I know that working together is the key to achieving great results. As a leader, I am committed to fostering a positive and supportive work environment where everyone's talents and ideas are valued.

03 Mission Statement

Vision

The Future

My mission is to help drive Africa's digital transformation by empowering businesses with innovative, custom-designed digital solutions.

I am committed to building long-term partnerships with my clients, understanding their unique needs and challenges, and delivering results-driven solutions that are tailored to their specific goals. My vision is to see African businesses thriving in the digital age, leveraging the latest technologies to achieve growth and success.

"Success is not final, failure is not fatal: It's the courage to continue that counts"

Zig Ziglar

As a web design agency, I believe that UI/UX design, branding, and development are crucial components of a successful online presence. These three focus areas are not only important in terms of creating an aesthetically pleasing website, but also in terms of building a strong brand identity, improving user experience and driving conversions.

Overall, my priority is to help businesses achieve success in the digital age by delivering customized, integrated and effective solutions that align with their goals and needs.

Showcase

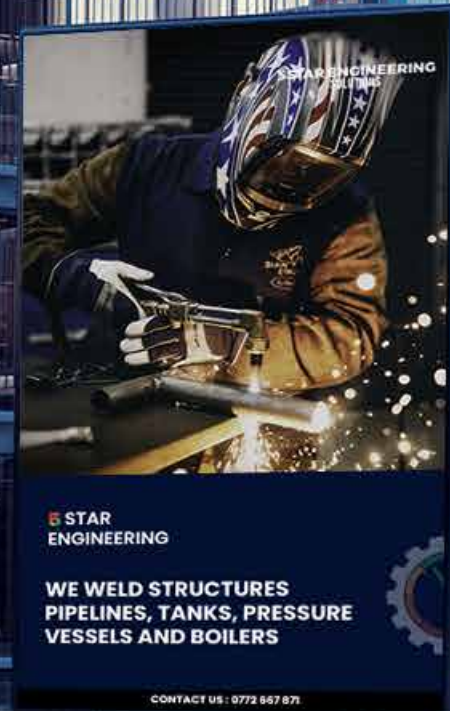

UI/UX Design

creating an intuitive and engaging user experience that encourages visitors to interact with your website and ultimately convert into customers. By focusing on the user interface and user experience, we can ensure that your website is easy to navigate and understand, leading to increased engagement and customer satisfaction.

Branding

Is critical for establishing a strong and memorable identity that sets your business apart from competitors. By developing a cohesive and consistent brand strategy, I can help you create a lasting impression in the minds of your customers, leading to increased brand awareness and loyalty.

Development

It is crucial for ensuring that your website is optimized for speed, reliability, and scalability.

By leveraging the latest technologies and best practices in web development, I can create a website that not only looks great, but also performs optimally, leading to improved search engine rankings and a better user experience.
